## REMARKS

The figures of births and deaths shown in this statement for week ending the 1st October, 1955 relate to 221 towns with an estimated population of 31,382 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 74% of the total number of towns representing 80% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 24,475 and 8,289 representing birth and death rates of 40·6 and 13·7 per thousand of population respectively.

(a) *States (Parts A & C).*—The data here relate to 186 towns with an estimated population of 27,113 thousands. Information about Ajmer, Bihar and Madhya Pradesh, could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 73% of the total number of towns representing 83% of the total population is covered. The number of births and deaths

recorded in these towns were 21,879 and 7,315 representing birth rates and death rates of 42·0 and 14·0 per thousand of population, respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 35 towns with an estimated population of 4,269 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 73% of the total number of towns representing 67% of the total population is covered. The number of births and deaths recorded in these towns were 2,596 and 974 representing birth and death rates of 31·6 and 11·9 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.

## REMARKS

The figures of births and deaths shown in this statement for week ending the 8th October, 1955 relate to 221 towns with an estimated population of 31,714 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 74% of the total number of towns representing 81% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 22,108 and 7,913 representing birth and death rates of 36.2 and 13.2 per thousand of population respectively.

(a) *States (Part A and C).*—The data here relate to 201 towns with an estimated population of 28,763 thousands. Information about Ajmer, Madhya Pradesh could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 80% of the total number of towns representing 88% of the total population is covered. The

number of births and deaths recorded in these towns were 20,698 and 7,354 representing birth rates and death rates of 37.4 and 13.3 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 20 towns with an estimated population of 2,951 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 42% of the total number of towns representing 46% of the total population is covered. The number of births and deaths recorded in these towns were 1,410 and 559 representing birth and death rates of 24.8 and 9.9 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
